

**Supplementary Fig. 1. Prevalence of patients with eGFR less than 60 mL/min/1.73 m<sup>2</sup> at baseline according to current and new CKD-EPI equations.**

CKD-EPI, Chronic Kidney Disease Epidemiology Collaboration; Cr, creatinine-based current equation; Cr (NEW), creatinine-based new equation; Cr-Cys, creatinine and cystatin C-based current equation; Cr-Cys (NEW), creatinine and cystatin C-based new equation; eGFR, estimated glomerular filtration rate.
