The authors want to inform the readers that incorrect clinical photographs were inserted in this manuscript. In the original version of this article, the inserted clinical photos were not matched to the angiography in Fig. 4. Therefore, we removed the clinical photos (Fig. 4A, C) and left the angiography only (Fig. 4B, D). Accordingly, the legend of Fig. 4 was changed. In addition, the previous clinical photo in Fig. 3 was replaced with a new one, as shown below. The authors apologize for these mistakes. However, these corrections do not affect the scientific conclusion of the article.

Figure 3. A hemodialysis patient shows his left arm swelling caused by brachiocephalic vein stenosis.
